Student Name : _____Mark O'Keeffe_____
Url of deployed site : _____tbonecenter.ie_____
OK to include in (internal, non-public) demo video : Yes / No

Grade Band	*Content*	*Structure*	*CSS Rules*	*Project Structure*	Design
Baseline	A good baseline is achieved with more than 3 to 5 pages	Well formed and you can follow the flow.	Concise & efficient is acheived	Base Readme	Consistent use of appropriate fonts and colour.
Good	5-7 pages of files and folders from pictures to external links to various sources.	Various different id's and div classes are for use across the shaping of the display	Multiple style sheets and some reusable.	Read Me with various sources for ref on the structure.	Each page has a distinct function and logic.
Excellent	7 pages of content with videos sourced from youtube.	The navigation bar response with a change in colour once hoovered over across all pages.	Each Page has a different form of grid witch adds to the design and display layout.		Integrated, legible, clear & consistent design.
Outstanding	I have my website pending for deployment from Irishhost.ie. I have used this before but there is a delay at this time.				There are various colours and moods across each page with slight different fonts as well as different style layouts.

Additional Notes:

Techniques you have employed in the project that you have acquired independently. Short notes in each technique/technology:

1. The use of the shaping images with borders and radius borders to show how to design different styles and uses for images both original and 3rd party.

2. Grid use and how they layout the style of look for the front-end user. This is across each page individually.

3. A use of Semantic elements across all pages with header and footer and each grid utilised to present content.

4. The use of a input form for the purpose of content in the contact us page.

Grading Spectrum

Grade Band	Content	Structure	CSS Rules	Project Stucture	Design
baseline	3-5 pages	Well formed	Concise & efficient	Basic Readme	consistent use of appropriate fonts and colour
good	5-7 pages, Images, Consitent naming of files/folders	Consisent indentation Effective use of divisions, classes/Ids	Multiple stylesheets, some reusable	Readme with source attributions	each page having a distinct theme/logical flow of content
excellent	7+ pages Media (audio/video)	Context Sensitive Navigation	Grid	EJS Templates + Layout	Inregrated, legible, clear & consistent design
outstanding	Deployed	Appropriate use of Semantic Elements	Flexbox (for navigation)	EJS Partials	More sophisticated colour usage, mood, theme (colour wheel)
